Importance: High
Subject: West Lake Landfill - Joint Groundwater discussion for new OU
Start Date/Time: Wed 1/20/2016 4:00:00 PM
End Date/Time: Wed 1/20/2016 9:00:00 PM
[agenda.gw.pdf](#)

All,

For those that can make the trip, we'll meet at DNR as most central point (for those of us in Missouri at least - Sorry Dave and Zoltan). Will need to coordinate conference room with DNR folks and call line please for anyone that needs to remote in for this one. I know Dave B. is still healing from his surgery for likely calling too.

As we discussed at our last face to face, lets plan to start getting into the weeds on groundwater at the site. So please bring, and share if possible, before January 15, anything you consider relevant to cover.

At the least meet in the morning, break for lunch and wrap after. Also, my apologies up front if I have missed anyone on this distribution.

Agenda added. Due to weather EPA will be calling/adobe connecting in for this meeting. Sorry folks but didn't want to reschedule to keep this moving forward (must be the mid-west when weather shifts). However, for those still going to Jeff City and per Ryan, MDNR has reserved the Roaring River conference room (bottom floor, 1730 E. Elm building) for January 20. It has internet capability, projector and screen, and a phone in the room.
